

Bilbao, 3rd November 2025

Dear ELFA Members and Friends,

As previously announced the next Annual General Meeting and Conference of the Association will take place at University of Deusto (Bilbao, Spain) from 15-17 April 2026.

The theme of the conference will be **Artificial Intelligence and Legal Education**. The ELFA Board is confident that this theme will be of great interest to all members given the impact of this technology on our academic mission. The ELFA Board will be pleased to receive proposals for short contributions to the conference's theme from ELFA members, for in-person presentation and discussion during the conference. Proposals should be sent by email to elfa.agm@gmail.com by Friday 15th November 2025.

The Board will consider and evaluate all proposals received considering the framework and possibilities of the conference. We are planning to have four panels instead of the usual five, to give time for a networking session given the opportunity to facilitate the collaboration on future Erasmus projects, research collaboration, summer schools, joint degrees, European common degree, guest lectures... and any other possible academic collaboration. We hope that this may be of interest to all of you.

Please find attached a **preliminary schedule of the programme**. We attach also a **list of accommodation possibilities in Bilbao**.

A detailed programme will be circulated early next year with the opening of the registration for the conference.

The ELFA Board and I are very much looking forward to welcoming you to Deusto in April 2026!

Gema Tomás
ELFA President
